Some Reflections on a Territorial Review

NSPA in a European context

Sparse or…? The territorial view of the NSPA

Explaining Västerbotten's engagement
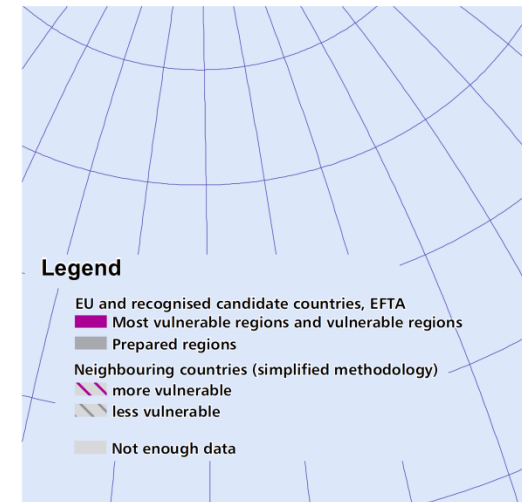

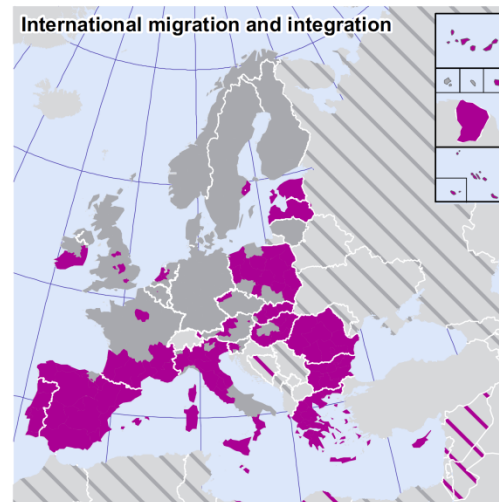

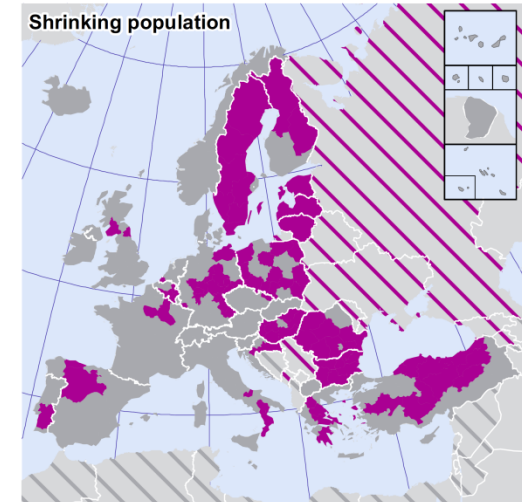

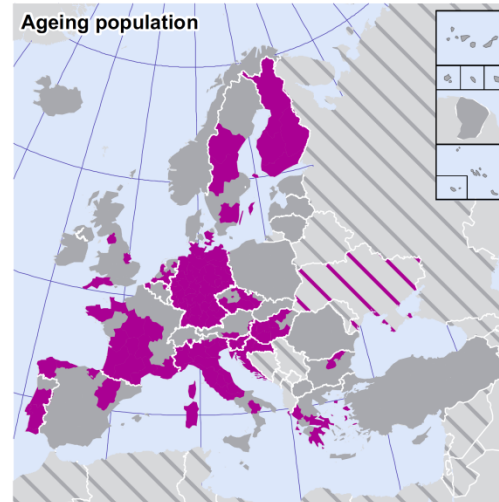

Demographic challenges

Key vulnerabilities:

Shrinking population (SE, FI)

Aging population (SE, FI)

Prepared for:

International migration and integration (all)

Natural resources and environmental challenges
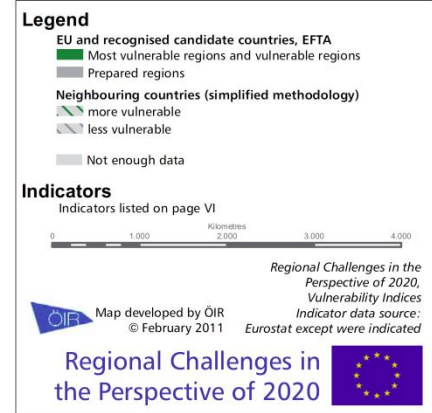

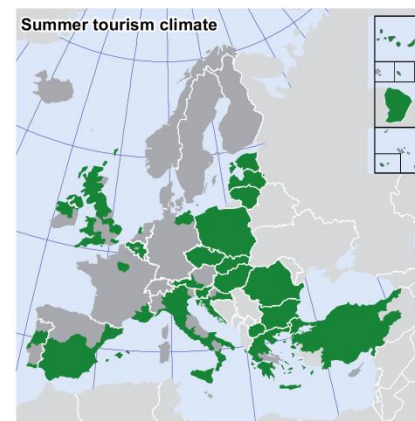

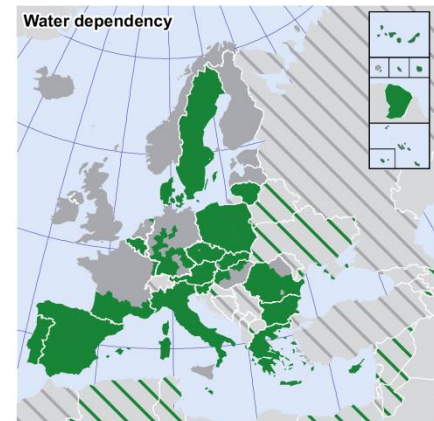

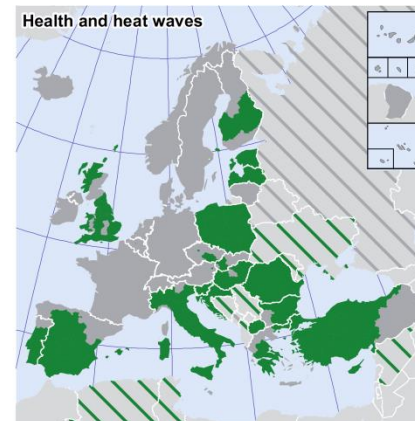

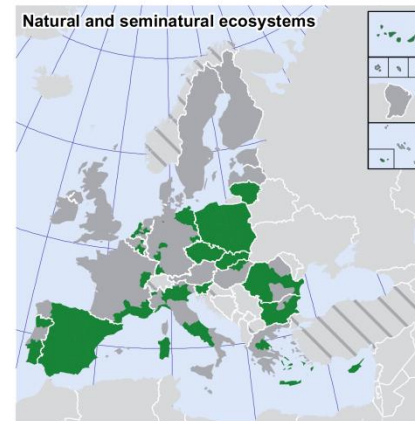

Key vulnerabilities:

Natural hazards and coastal threats (all)

Health and heat waves (FI)

Water dependency (SE)

Prepared for:

Summer tourism climate (all)

Mobility and accessability

Key vulnerabilities:

Global players (SE)

Acessability (all)

Prepared for:

Mobility of persons and goods (all)

Knowledge and know-how (all)
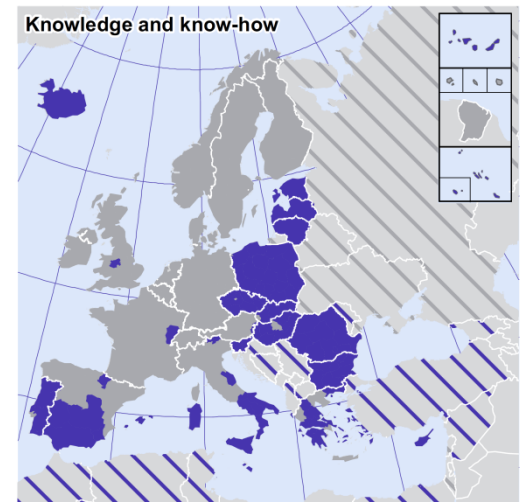

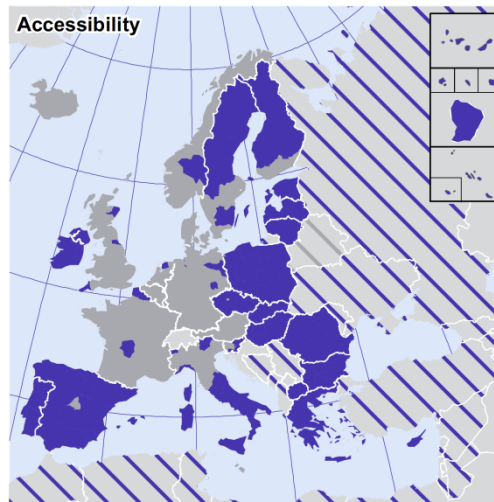

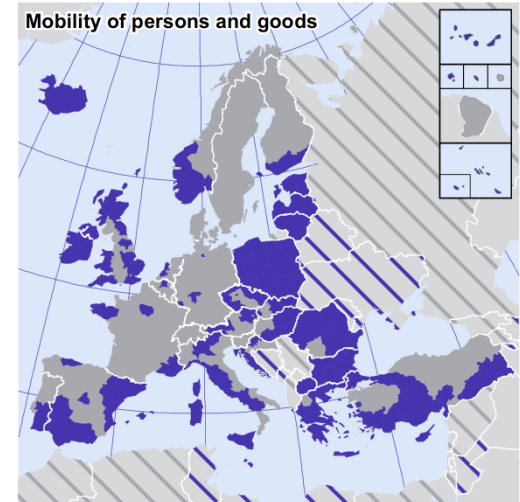

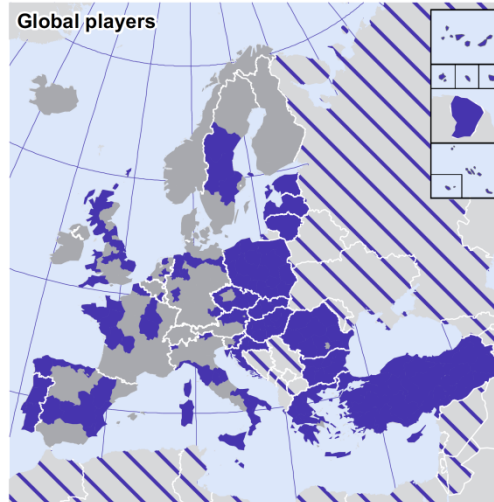

Regional innovation scoreboard 2014

Innovation leaders:

Lappi

Pohjois-Pohjanmaa

Keski-Pohjanmaa

Innovation followers:

Kainuu

Karjala

Savo

Norrbotten

Västerbotten

Västernorrland

Jämtland

Trondelag

Moderate innovators:

Nord-Norge

Map created with Region Map Generator

Sparse?

How do this description align with
territorial visions for Europe?

0 - 30 minutes
30 - 45 minutes
45 - 60 minutes
> 60 minutes

Accessability by road to a city with > 50 000 pop

Strong, Specific and Promising

- Economic high performers
- European metropolitan regions
- Innovation leaders

Type of Regions

Globalised regions

- Global metropolitan regions
- European metropolitan regions
- Knowledge intensive globalised regions

Regions vulnerable to globalisation

- Service-oriented vulnerable regions
- Highly vulnerable periphery

Regions handling globalisation

- Low-mass economic high performers
- High productivity regions
- Regions prepared for globalisation

Regional Challenges in the Perspective of 2020, Vulnerability Indices

Regional Challenges in
the Perspective of 2020

Explaining Västerbottens engagement

The experiences

- Making Västerbotten visible
- Elaborating the use of data and constructing professional networks
- Building critical mass (important)

The benefits

- Use our existing analysis, data/indicators and strategies/plans
- Combine our 14 different " regional pictures" and three different governance systems in a comprehensive picture
- Create a useful "selfie" of the territory to strenghten
  - our (intuitive?) self-perception
  - visibility in the European and Global context

The inputs

- The deal with OECD
- Our own efforts
